

Penetration Testing Services for Medical Software Company

PROJECT DETAILS

 Cybersecurity, Application Testing

 Dec. 2025 - Jan. 2026

 Less than \$10,000

 *"The set of tools they used to communicate their results was clear and efficient."*

PROJECT SUMMARY

Stingrai Inc. conducted penetration testing for a medical software company. The team identified vulnerabilities in the client's system and provided a platform to share information and communicate for retesting.

PROJECT FEEDBACK

Stingrai Inc.'s work helped the client eliminate high-importance vulnerabilities, making their system more secure. The team was professional, quick, and available. They primarily communicated via email and messaging apps. The client also praised the team's clear and efficient communication.

The Client

Introduce your business and what you do there.

I'm the CTO of Bia Education. We're developing an AI-powered recommendation decision system for musculoskeletal consultations.

The Challenge

What specific goals or objectives did you hire Stingrai Inc. to accomplish for your musculoskeletal consultation platform?

We hired Stingrai Inc. for penetration testing to certify our app for a cybersecurity requirement.

CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

Can you describe the scope of their involvement in this project?

Stingrai Inc. identified six vulnerabilities. They provided a platform to share these vulnerabilities, explain them, provide a way to reproduce them, and a communication system for retesting. The main deliverable was a report. The team also provided general recommendations for fixes.

What is the team composition?

We worked with 2–5 teammates from Stingrai Inc.

How did you come to work with Stingrai Inc.?

We found them through a referral. We chose them over other options because they offered good value for the cost.

How much have you invested in them?

We spent less than \$10,000.

What is the status of this engagement?

We worked together from December 2025–January 2026.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

We have a more secure system, primarily through the elimination of high-importance vulnerabilities. We can show that we don't have any known vulnerabilities left and that we've fixed them in a time-efficient fashion.

How did Stingrai Inc. perform from a project management standpoint?

They were very professional, quick, and available. We primarily communicated via email and messaging apps.

What did you find most impressive about them?

The set of tools they used to communicate their results was clear and efficient.

Are there any areas they could improve?

No, there's nothing that comes to mind.
