

# Penetration Testing for EdTech Company

## PROJECT DETAILS

 Cybersecurity, Application Testing

 Aug. 2025 - Aug. 2025

 Confidential

 *"Their experts brought a wide range of perspectives and innovative approaches to identifying complex vulnerabilities."*

## PROJECT SUMMARY

Stingrai Inc. was hired by an educational technology company to conduct penetration testing on their web application. The team identified vulnerabilities in the app's architecture, code, and configurations.

## PROJECT FEEDBACK

Stingrai Inc. successfully identified and documented all critical and high-priority vulnerabilities in the client's web application, improving their overall security posture. Stingrai's technical team showcased impressive creativity and diversity. The team delivered reports and assessments on time.

## The Client

Please describe your company and position.

I am the CTO of shuriii

Describe what your company does in a single sentence.

We provide an instructional design copilot for K-12 teachers in high-priority schools.

## The Challenge

What specific goals or objectives did you hire Stingrai Inc. to accomplish?

- Penetration testing our web application

 **Amin**  
CTO, shuriii

 **Other industries**

 **Toronto, Ontario**

### CLIENT RATING

**5.0**

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

## The Approach

How did you find Stingrai Inc.?

friends

Why did you select Stingrai Inc. over others?

- High ratings
- Close to my geographic location
- Pricing fit our budget
- Great culture fit
- Good value for cost
- Referred to me
- Company values aligned

How many teammates from Stingrai Inc. were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

The scope of work involved engaging Stingrai to perform a comprehensive penetration test of our web application. Their team conducted an in-depth security assessment, simulating real-world attack scenarios to identify vulnerabilities and weaknesses across the application's architecture, code, and configurations. Key deliverables included a detailed report outlining all identified issues, prioritized by severity, along with clear guidance and recommendations for remediation. Stingrai also provided strategic advice on strengthening our overall security posture and collaborated with our team to plan and execute retesting after fixes were implemented, ensuring all identified vulnerabilities were resolved effectively.

## The Outcome

**What were the measurable outcomes from the project that demonstrate progress or success?**

The measurable outcomes from the project include the identification and documentation of all critical and high-priority vulnerabilities in our web application, the implementation of recommended fixes, and successful re-testing confirming that these issues were resolved. The project also improved our overall security posture, reduced risk exposure, and provided clear metrics on vulnerability closure rates and remediation timelines, demonstrating tangible progress and success in strengthening the application's security.

**Describe their project management. Did they deliver items on time? How did they respond to your needs?**

Stingrai demonstrated strong project management throughout the engagement. They delivered all reports and assessments on schedule and communicated timelines clearly. Their team was responsive to our questions and needs, providing guidance and clarification whenever required. They adapted to our requests for follow-up testing after fixes and ensured that the project progressed smoothly and efficiently from start to finish.

**What was your primary form of communication with Stingrai Inc.?**

- Virtual Meeting
- Email or Messaging App

**What did you find most impressive or unique about this company?**

What was most impressive about Stingrai was the creativity and diversity of their technical team. Their experts brought a wide range of perspectives and innovative approaches to identifying complex vulnerabilities, offering practical guidance for remediation, and

providing strategic advice to strengthen our security. The combination of technical skill, creativity, and diverse experience made the engagement highly valuable.

**Are there any areas for improvement or something Stingrai Inc. could have done differently?**

The progress report during testing could be better.
